

Arlene Nietes Satapornvanit has been involved in gender integration in the workplace and in project management since the 2000s, working with sustainable aquaculture and fisheries projects in the region with gender as a cross-cutting theme. She was the Gender Programme Coordinator at the Network of Aquaculture Centres in Asia-Pacific (NACA, 2014-2015) and the Human Welfare and Gender Integration Specialist of the USAID Oceans and Fisheries Partnership (Tetra Tech ARD, 2015-2020). Currently she is the Project Manager of the USAID Sustainable Fish Asia Local Capacity Development Activity implemented by RTI International, and also functions as its Organizational Development Specialist and Gender Equality and Social Inclusion Specialist. Arlene is an alumna of the University of the Philippines (BSc Fisheries Business Management), Asian Institute of Technology (MSc Aquaculture), and University of Stirling (PhD Aquaculture). She is a member of the Gender in Aquaculture and Fisheries Section of the Asian Fisheries Society (GAFS/AFS), the International Organisation for Women in the Seafood Industry (WSI), and the Social and Gender Standard Steering Committee of the Asian Seafood Improvement Collaborative (ASIC).
